Every Dollar Goes for Service

The people of this country demand of the Bell System the best possible telephone service. The one endeavor of the company, its only reason for existence, is to give the best possible service.

Every dollar the Bell System receives goes to provide telephone service.

Its entire receipts are expended on operation, upkeep and development. More than half goes directly to labor. The remainder is expended for materials, for the maintenance of plant and equipment, for the interest on money borrowed, for dividends on the investments of tens of thousands of shareholders, and for the payment of taxes assessed by public authorities.

In its last analysis all telephone money goes for wages; wages for labor and wages for necessary capital which investors have put to work in the Bell System.

The telephone management is the servant of the public. It is entrusted with the duty of providing the quality of service the public demands. The wages of labor, the wages of trained employees and the wages of the men and women that provide the finest of mechanical and most efficient operation, must be paid. As a public servant, one duty of the management is to obtain rates sufficient to cover for these necessities of service.

Information About Telephone Service

Members will find it to their interest to familiarize themselves with the contents of these pages

The Company and its subscribers are mutually interested in everything that will assist in making the telephone service to the highest possible standard of efficiency. One of the most important means of raising the standard is a better and greater knowledge on the part of the subscribers and patrons of the best method of procedure in using the service. The data on the following pages contains valuable information and suggestions which, if studied, will enable you to use the telephone more efficiently.

Local Telephone Service

Members' Numbers. Each subscriber is designated by an exchange prefix and number which is placed to the right of the name and address in the directory. Always obtain the correct number from the current issue before making a call.

Use the Telephone Properly. Place the receiver close against the ear, and the lips directly in front of and close to the mouth-piece of the transmitter. Speak in a moderate tone of voice and talk clearly.

to Make a Telephone Call. Take the receiver from the hook and place it at the ear. If your telephone has a signal attachment, give one quick turn of the crank before removing the receiver from the hook. The operator will say — "Number, please!" Give the exchange prefix and number of the number wanted (for example: Hammond 123 [one-two-three] giving each figure separately) and the operator will repeat them to avoid mistakes. Remain with the receiver at the ear until an answer is received. If the line desired is in use either the "Busy Signal" (an interrupted, buzzing sound) will be heard or the operator will notify you of that fact. The Busy Signal means that the line called for is not available with some other line. Always hang up the receiver when through talking. If your telephone has a signal attachment, hang up the receiver and give one quick turn of the crank, to notify the operator to disconnect.

to Answer a Telephone Call. Remove the receiver from the hook and answer promptly by giving your number or name (or both) or the firm's name, for example, "This is Gary 345 (three-four-five), Mr. Jones talking," or, "Jones-Haskell Company, Mr. Jones talking." Avoid the use of phrases as "Hello!" "Well?" and "What is it?"

or Calls Promptly. Always answer calls promptly. Failure to do so keeps the calling party waiting and may result in the loss of a message.

Direct the Operator's Attention during a connection, move the hook up and down slowly a few times until the operator answers. Do not move the hook rapidly as this will prevent the operator from receiving the desired signal. If your telephone has a signal attachment, hang up the receiver and give a quick turn of the crank the same as when making a call.

Number. If, for any reason, you are connected with a telephone other than the one you wish, do not hang up the receiver. Move receiver hook slowly up and down as directed in the preceding paragraph, to attract the operator's attention. If your telephone has a signal attachment, hang up the receiver and give a quick turn of the crank the same as when making a call. She will answer by saying "Operator." Inform her that you have been given a wrong number, repeating the correct number and number you wish, and she will, if possible, secure the proper connection for you.

Information About Telephone Service—Continued

Service Connection Charges, New or Additional Service; also for Change of Address:

1. For Individual and Party Line Service..... \$5.00
 2. For each extension station connected with any class of telephone service..... 3.00
 3. For Private Branch Exchange Service the charge for establishing service is:
 - (a) For each trunk line connecting the Private Branch Exchange with a central office... \$5.00
 - (b) For each telephone connected to the Private Branch Exchange..... 3.00
 4. To cover in part Directory, Accounting, Circuit and Switchboard expenses in cases where service is established by the use of instrumentalities already in place in the subscriber's premises and no change is made in the type or location of such instrumentalities..... \$1.00
- For Moves and Changes.** The charges for changes of location or style of telephone equipment or wiring on the same premises are:
1. For moving a telephone set from one location to another on same premises..... \$5.00
 2. For change in type or style of telephone set..... 3.00
 3. Change of name on same premises, see telephone set \$1.00; maximum charge..... 3.00
 4. For moving or changing any other equipment or wiring on the same premises, a charge based on the cost of labor and material.

Identification of Employees. All employees of the Company whose duties require them to enter the premises of its subscribers for any purpose whatever are supplied with identification cards, each card bearing the photograph and name of the employee entitled to carry it. Any subscriber having the slightest doubt as to the identity or the right of the person representing himself to be an employee of the Company should inspect the card. Beware of bogus collectors or inspectors.

Attachments to Telephone. Telephone instruments have been designed as they are to produce the best results and are, necessarily, very sensitive and intricate. The various unauthorized devices offered for sale, which are supposed to improve transmission, eliminate noise, destroy static, supplant the telephone directory, etc., are unnecessary. Many of them get the telephone lines and instruments into trouble, and the Company, to protect its service, is compelled to remove them.

Subscribers' contracts provide that no instruments or appliances not furnished by the Company shall be attached to or used in connection with its instruments or lines.

Public Telephones. Public telephone facilities are provided for the convenience of the general public in Railroad Stations, Department Stores, Hotels, Places of Amusement and in thousands of other locations throughout the city and suburbs. Whenever a "Blue Bell" sign is displayed the telephone is available to all.

Telephone Directories of Other Cities. Telephone Directories of the principal cities in the United States and Canada may be obtained by any of our subscribers or patrons, who will agree to pay the charge made by the issuing Company. For further information apply to your District Manager.

Telegrams by Telephone

Call by Name. To facilitate sending telegrams and cablegrams, patrons should call by NAME for the Postal Telegraph-Cable Company, and for the Western Union Telegraph Company.

For Postal Telegraph-Cable Company—Call "POSTAL TELEGRAPH"

Patrons calling "POSTAL TELEGRAPH" will be connected with the office designated by that Company to receive telegrams or cablegrams by telephone.

For Western Union Telegraph Company—Call "WESTERN UNION."

Patrons calling "WESTERN UNION" will be connected with the office designated by that Company to receive telegrams or cablegrams by telephone.

Patrons desiring communication with telegraph companies for any other purpose than to send a telegram or cablegram should call by EXCHANGE PREFIX AND NUMBER in the usual manner.

Regulations

With Which Subscribers Have Agreed to Comply

Use and Care of Equipment. The Subscriber shall not make, permit or use any electrical or mechanical connections or apparatus with the lines or equipment furnished by the Company, without the Company's consent. The lines and equipment on subscriber's premises shall be carefully protected and used for lawful purposes where installed and upon the termination of the right of use subscriber agrees to surrender them to the Company unimpaired or to insure, indemnify and pay the Company for any loss or injury to them arising from carelessness, accident or any other cause. At all reasonable times the Company shall have the right, which the subscriber shall provide, of access from the street line and of entering the premises of the subscriber to install, inspect or repair the lines or equipment or to remove them upon the termination of the subscriber's right of use. The subscriber shall not use or permit the use of foul, abusive or profane language or personate any other individual with fraudulent or malicious intent, over the equipment furnished.

Exchange Service. Subscribers to Exchange System service may, on the terms of their contracts, transmit local messages to all exchange telephones located within the limits of the exchange system in which the subscriber is served.

A local message is a communication not exceeding five minutes' duration between subscribers' stations within the same exchange limits.

Business service is furnished for use of subscribers and their employees only in their business and for such extra name users on the same premises as may be contracted for by the subscribers.

Residence service is furnished for the use of subscribers and their families only at their residences and for such extra name users on the same premises as may be contracted for by the subscribers.

The Company Does Not Guarantee Uninterrupted Working of the Lines or Equipment. For any complete failure of service of which notice in writing has been sent to the Company's district office and continued for more than twenty-four hours thereafter, an abatement of the contract charge for the period of such interruption shall be made.

The Company shall not be liable for defaults occurring on the lines of any other Company.

Subscriber's Telephone Number. Each subscriber's telephone is designated by an exchange prefix and number, which are placed to the right of his name in the telephone directory. This prefix and number are no part of the contract with the Company, and may be changed by the Company when necessary.

Private Branch Exchange Operation. Operators employed by the subscriber for the operation of private branch exchange switching apparatus shall comply with the operating rules of the Telephone Company, and render service satisfactory to it.

Collections. Settlements for service are due upon receipt of bills rendered about the first of each month. Payment should always be made before the 15th of the month at the Local Exchange Office. Checks should be made payable to the Chicago Telephone Company. Subscribers are urged to settle their accounts promptly before they become delinquent to avoid suspension of service and inconvenience to their patrons and other users.

Alterations. The subscriber agrees to notify the Company promptly in writing whenever alterations or new construction on premises owned or leased will necessitate changes in the Company's equipment and the subscriber agrees to pay the Company's current charges for such changes. Estimates furnished on application.

Regulations, Concluded, and Long Distance Telephone Service

Change of Address or Location. The Company will move the equipment to any point where the Company furnishes similar service, within the limits of the same exchange system accessible with its facilities, upon written order, when the subscriber agrees to pay the Company's current charge therefor. After a Removal the Subscriber Shall Pay the Current Rate for Service at the Location to Which the Removal is Made.

Termination. The subscriber or the Company may terminate the contract on current terms, by giving ten days' written notice, in which case the subscriber shall pay in full to the end of such ten days, and the Company will refund the portion of any payment made in advance but still unearned at the end of such ten days.

Reinstatement Charge. Whenever a subscriber's telephone service is discontinued for non payment or other breach of contract, a charge will be made for the restoration of the service, not exceeding \$2.00.

Long Distance Telephone Service

The information given below is for the purpose of explaining the various classes of Long Distance service furnished. A careful perusal of this matter will enable subscribers to apply the service most advantageously.

Station-to-Station Service

The term Station-to-Station service is defined as a connection between any two telephones (including private branch exchange switchboard operator) and does not contemplate the establishment of conversation between particular individuals.

Under Station-to-Station rates a charge for a message is made in all cases where a connection is established with the called station. The charges for a Station-to-Station message shall not be "reversed"; i. e., collected at the called station.

MESSAGE RATES STATION-TO-STATION (BASIS)

Day Rates:—4:30 A. M. to 8:30 P. M.

AIR LINE MESSAGE DISTANCES		INITIAL RATE		OVERTIME RATE	
More than	But not to exceed	Rate	Minutes or Fraction Thereof	Rate	Minutes or Fraction Thereof
Miles	Miles				
0	12	\$0.10	5	\$0.05	3
12	18	.15	5	.05	2
18	24	.20	5	.05	2
24	32	.25	5	.05	1
32	40	.30	3	.10	1
40	48	.35	3	.10	1
48	55	.40	3		

Overtime rate for distances more than 48 miles, approximately one-third initial rate for each additional minute or fraction thereof.

For each additional 8 miles or fraction thereof, 5 cents additional. All initial rates for distances beyond 55 miles are for periods of three minutes or fraction thereof.

Evening Rates:—Between 8:30 P. M. and 12 Midnight, one-half of the day rates.

Night Rates:—Between 12 Midnight and 4:30 A. M., one-fourth of the day rates.
Minimum "Evening" or "Night" rates, 25 cents.

Long Distance Telephone Service—Continued

In applying Day, Evening and Night rates, the time of day at the originating point shall govern.

The time at which connection is established governs the rate in determining whether the Day, Evening or Night charge applies.

If connection is established in one period and terminates in another, the rate in effect at the time the connection is established applies to the entire message.

Person-to-Person Service

Calls for particular individuals are accepted at a rate one-fourth more than those quoted under Station-to-Station service, subject to the following regulations.

Orders for Person-to-Person service are accepted only under the condition that a limited charge (to be known as "Report Charge") will be made in the event the Company is unable to establish communication for any one of the following reasons:

1. — When the order is to establish communication with a particular person in a given city, telephone address unknown, and the particular person cannot be secured within one hour (exclusive of any time during which "no circuits" or other cause prevents communication of the order to the distant city or exchange, or its completion).
2. — When the designated person called refuses to talk.
3. — When the report is returned that the designated person called is "out" or "out and will return at (specified time)" or "out and time of return unknown," "is absent from the city," and similar reports advising the calling subscriber of the facts ascertained when failure to complete the order is due solely to the circumstances of the called person or to fault in describing the location of the called person, and when all of the work preliminary to establishing communication with the called person is done.
4. — When communication between the designated persons cannot be established because the designated person at the calling station is absent at the calling station; provided that no charge shall be made in such cases where the delay, if any, in establishing connection is greater than one hour.
5. — When the designated person at the calling station refuses to talk when the facilities for communication have been established.

A Report Charge in addition to regular message charge is not made provided the call is completed on the day it is filed.

In any case where a Report Charge applies, the minimum Report Charge is 5 cents and the maximum \$2.00 — approximately one-fourth of the initial Station-to-Station rate.

No Person-to-Person rate shall be less than 15 cents.

To points where the Station-to-Station rate is 10 cents, a Person-to-Person call is accepted at the 15 cent rate.

Long Distance Telephone Service—Continued

The initial period on all Person-to-Person calls is three minutes. An additional charge is made for each additional minute or fraction thereof. On a 15 cent, 20 cent or 25 cent message the charge for each additional minute is 5 cents. On a 30 cent message the charge for each additional minute is 10 cents and on all messages where the initial rate is 40 cents or more a charge equal to approximately one-third the initial rate is made for each additional minute or fraction thereof.

Appointment Calls. An Appointment Call is a Person-to-Person call on which communication is to be established at a specified time.

The rate for an Appointment Call is approximately one-half more than the Station-to-Station rate; but in the case of any Appointment Call, where the distant station is reached, whether the appointment be made or not, the Report Charge applicable in case of Person-to-Person calls shall be made.

Messenger Calls. Messenger Calls are Person-to-Person calls requiring the use of a messenger, to secure a designated person.

The rates for Messenger Calls shall be the same as apply to Appointment Calls, plus any charges that may be required for the service of messengers.

Messenger charges incurred are to be paid even if desired conversation is not held.

Collect Calls. Collect Calls are Person-to-Person calls; the charges for which are "reversed"; that is, to be collected from the called station, provided the charges are accepted by the person called.

Evening and Night Rates as described in Station-to-Station schedule do not apply to Person-to-Person calls, the rate being the same on these either day, evening or night.

To Make a Long Distance Call. Call the local operator in the regular way and ask for "Long Distance." When the long distance operator answers, give her the name of town or city desired. If you wish to file a Station-to-Station call, notify the operator that you will talk with anyone who answers the telephone at the desired address (see Station-to-Station service, page 9). If you wish to file a Person-to-Person call, give the operator the name of the particular person wanted (see Person-to-Person service, page 10). In either case, furnish the telephone number desired (if known) otherwise give the firm name or the name and initials of the person under whose name the telephone is listed, and, if possible, the street address. Then give the number of the telephone from which you are calling and your name.

Requests for Charges. If a patron desires notification of the amount of the charge on his message he will save time by so advising the operator at the time he gives his call. If the request for such information is not made until the completion of the conversation, unavoidable delay results while the operator obtains the rate and computes the charge.

Bills for Long Distance Service are made from the 21st of one month to the 20th (inclusive) of the next month, in order that they may be issued at the beginning of each month.

Supervision by Private Exchange Operators. The long distance operator is held responsible for the supervision and timing of all messages and for the character of the service furnished. Supervision of connections by Private Branch Exchange Operators interferes with satisfactory service, and such operators should not remain "out in" on the line after the connection has been established.

Schedule of Toll Rates for Express Service to the Points Enumerated Below

To make a call between any of these express points, proceed the same as with a local call; i.e., give the operator the exchange prefix and number desired and hold the receiver until the called number answers or the operator gives a definite report.

Express Service rate between	Beverly	Burnham	Burnside	E. Chicago	Griffith	Hammond	Hegewisch	Highland	Indiana Harbor	Lansing, Ill.	Lake Shore	Munster	Pullman	So. Chicago	Whiting

Rates quoted are for a period of 5 minutes. An additional charge of 5 cents is made for each 3 minutes or fraction thereof in excess of 5 minutes when the initial rate is 10 cents. An additional charge of 5 cents is made for each 2 minutes or fraction thereof in excess of 5 minutes when the initial rate is 15 cents.

A subscriber wishing Person-to-Person, Appointment, Messenger Calls or Charges Reversed on calls to any of the above points, may secure the rate from the Long Distance operator. If such service is desired, ask the local operator for "Long Distance."

Long Distance Telephone Service and Rates

On calls to points other than those listed above, ask for Long Distance. When the Long Distance operator answers, give her the details of your call, stating whether you desire Station-to-Station or Person-to-Person service (see pages 9, 10, and 11).

The following examples illustrate the method of charging according to the grade of service furnished:

FORGET YOUR TROUBLES MUSIC IS THE SUNSHINE OF LIFE
If you don't want to buy a musical instrument of us, buy it wherever
want to, but at least be good to yourself and family and cause miles of
miles of smiles by putting music in your home.

**IF YOU CAN'T MAKE MUSIC BUY IT BY THE YARD
TO THOSE WHO LOVE MUSIC BUT CANNOT PLAY**

The above expression may seem ridiculous, but it is possible. Player Piano Rolls and Phonograph Records furnish music of every description to millions who play no instrument.

BELL SYSTEM

Prolonged telephone conversations over party lines involve a certain amount of danger to fellow-subscribers.

An emergency call for the fire or police department, or for a physician, may be delayed by an unnecessarily long use of the line.

Party line subscribers are urged to make their telephone conversations as short as the business in hand will

mit.

CHICAGO TELEPHONE COMPANY

The Business Man Says

"I am more interested in good telephone Service than Rates. I must have good Service or I cannot run my business."

It was to be expected that a four year war, involving twenty-seven nations, in which seven million five hundred thousand men were killed, and more than twenty million injured, costing one hundred eighty six billions of dollars, would upset business and domestic affairs everywhere.

It certainly has done so.

It is the American characteristic to aim to produce the best manufactures, operate the finest railways, conduct the biggest stores, etc.

We are not satisfied to be just fair or medium. We strive for perfection.

The Telephone Company standard of Plant and Service has been in keeping with the National Characteristic. It has insisted upon the best telephone equipment that money could buy, and the best telephone service that skillful and competent people could produce.

The service is gradually getting back to the pre-war status, just as every business is slowly recovering from the effects of the war.

It is hoped that the Telephone Service will be the first to reach a high standard of perfection. No effort will be spared to secure this result.

Chicago Telephone Company

Dear Mr. and Mrs. Subscriber:

Merely by way of suggestion:

Improve your telephone service by throwing a little sunshine into your thought just before you take down your receiver. Don't go to the telephone cross!

This country, this world, is undergoing a universal attack of *Nerves*. Folks are ready to "fly to pieces" with or without the slightest provocation. To offset this condition everyone should try to be as patient and good-natured as possible under all circumstances.

A cheery request inspires prompt and cheerful compliance.

It is just as essential to keep in mind at the subscriber's end of the line, as at the operator's, the well known Bell watchword:

The Voice With the Smile Wins

CHIROPRACTIC

The Natural Way to Health

Ninety five percent of DISEASES are due to pressure upon nerves emitting from the Spinal Cord. In most cases CHIROPRACTIC ADJUSTMENTS positively remove that condition, then NATURE cures. No drugs, no medicine, no risk, no harm.

The Classified Telephone Directory

Is invaluable as a Buyers' Guide. You can secure any kind of an article or service by telephone—provided you know the proper concern to call for. You know there must be several firms supplying just the things you want, but "Who are they?"—"Where shall we find them?" In all such emergencies use "The Classified Telephone Directory"; it is a complete directory of 'phonable business folks—classified. Simply turn to the heading describing the article or service you desire and you will find some firm to serve you.
